MINUTES Nº 037

Governance Committee ZERO Energy

Date: November 4, 2026 **Time:** 9:00 H **Duration: Modality:** Virtual

1. Opening of the session

The session focuses on coordinating an acquisition campaign for the month of December, reviewing the status of functionalities in the process of being deployed, and organizing the work channels with an external partner. An operational approach is adopted to align messages, calendar, and transparency mechanisms.

2. Joint raffle campaign for December

A proposal for an acquisition campaign based on a raffle aimed at new registrations using ZERO Energy's referral code is analyzed. The possibility of a live announcement is considered as a transparency measure, along with alignment with the airdrop materials.

Agreement

- It is agreed to structure a joint raffle campaign in December with an external partner, using ZERO Energy's referral code as the eligibility criterion; the operational details are recorded internally.
- It is agreed to conduct the raffle communication live to reinforce transparency and the public traceability of the winner selection process.
- It is agreed to integrate the raffle into ZERO Energy's narrative and materials, coordinating messaging with the airdrop system to enhance conversion.

3. Status of sponsored transactions and launch strategy

It is reported that the sponsored transactions functionality is implemented in the application and in the process of being published. The appropriate timing to activate communication and acquisition campaigns is discussed.

Agreement

- It is agreed to launch marketing and acquisition campaigns focused on the experience currently available, without referring to external publication processes.
- It is agreed to prioritize organic traffic and verifiable audiences, applying anti-bot and traffic-quality filters.

4. Reorganization of communication channels

In order to improve operational coordination with the external partner, the creation of a specific channel for the campaign and the management of the historical record of prior communications is proposed.

Agreement

- It is agreed to create a new coordination group dedicated to the joint campaign.

- It is agreed to keep the previous group as a reference archive, avoiding mixing the current operations with the historical record.

5. Campaign operations: communities, airdrop and live event

Actions are specified to maximize organic reach on X and Telegram, coordinate the raffle mechanics with the airdrop, and plan a live event to communicate results.

Agreement

- It is agreed to prioritize organic dissemination on X and Telegram, leveraging allied communities and applying anti-bot controls to ensure traffic quality.
- It is agreed to announce the raffle winners in a live event, with a script and prior technical tests.

6. Closing of the session

With no further matters to discuss, the session of the Governance Committee is hereby adjourned.
