MINUTES Nº 034

Governance Committee ZERO Energy

Date: 14 October 2026 **Time:** 9:00 H **Duration:** 00:54 **Modality:** Virtual

1. Opening of the session

The ordinary session of the committee is opened to follow up on the recent community presentation, review actions on visibility, treasury, development and communications, and agree on the next operational steps. The agenda and the virtual modality of the call are validated.

2. Follow-up on the community presentation

The outcome of the open session with the community is reviewed and the convenience of having edited audiovisual materials for subsequent dissemination is discussed. It is proposed to remove the segments without audio and to share the content through the official channels.

Agreement

- It is agreed to request the edited version of the video, removing the initial segment without sound, and to disseminate it through the community channels and to interested parties.

3. Committee visibility on LinkedIn and official website

The need to update LinkedIn profiles to reinforce institutional presence and to link them from the official website under each committee profile is addressed. Interconnection between profiles and following the corporate page is also recommended.

Agreement

- It is agreed to update LinkedIn profiles with the corresponding position in the committee and to connect among members, as well as to follow the corporate page.
- It is agreed to include on the official website the LinkedIn link under each member of the committee.

4. Treasury and operational movements

The state of the treasury and the planning of cash flows to meet short-term operational commitments are analyzed. It is proposed to make a transfer to the wallet intended for operational payments and to record the movement immediately.

Agreement

- It is agreed to authorize a new transfer of funds to the payments wallet; the economic terms are recorded internally.
- It is agreed to record the movement in accounting in accordance with internal procedures.

5. Development (frontend and smart contracts) and audits

Progress on the interface and the smart contracts is presented, with a testing window planned in the short term. The need for an external audit to reinforce the security and credibility of the deployment is underlined.

Conclusion

- It is confirmed that the objective is to have contracts in a test environment within the planned timeframe and to coordinate internal tests.
- It is confirmed that an external audit is planned as soon as deliverables are ready for review.

6. Tokenomics and public documentation

The publication of the tokenomics document and the technical documentation on the project’s official channels is reported. Their public availability for the community is positively assessed.

Conclusion

- It is confirmed that the technical documentation and the tokenomics paper remain public on the official channels.

7. International expansion (Asian markets)

The potential opening in Asian markets through community contacts is assessed, focusing on coordinated actions when sufficient operational capacity exists. It is proposed to prepare a roadmap for evaluation.

Conclusion

- It will be studied the development of a roadmap and its operational feasibility for actions in Asian markets when resources allow.

8. Airdrop and community participation tools

The airdrop tools and the already operational information pages are reviewed, considering them instruments for community growth. Their coordinated use is reinforced.

Agreement

- It is agreed to promote in a coordinated manner the airdrop and the academy through the project’s official channels to drive community growth.

9. Ambassadors program and weekly calendar

The launch of the ambassadors program is validated and a calendar of fixed sessions for training, AMAs and support is consolidated. Members are invited to participate and observe key sessions.

Information

- It is reported the weekly calendar of sessions open to the community and support at the times communicated through the official channels.

10. Restructuring of the leaders group

The dynamics of the leaders group are reviewed with the aim of strengthening participation and optimizing the group's operability. Criteria are established to maintain the group's operability.

Conclusion

- It is confirmed that the group will be updated in accordance with previously defined participation criteria.

11. Official website: status, improvements and tutorials

The status of the unified (multilingual) website is presented with integration of invitation/registration mechanisms and committee/ambassadors sections, together with resources and tutorials. Immediate improvement priorities are listed.

Agreement

- It is agreed to prioritize: (i) the link to LinkedIn profiles under each member of the committee; (ii) the update of the partners section with the approved profiles; (iii) the incorporation of the tutorial and the link of the on-ramp provider once validated.

12. Payment gateway and operational autonomy

The convenience of having a proprietary collection structure to operate with greater autonomy is analyzed, including legal entity, bank account and payment gateway. The transition from the current provider is expected to be coordinated.

Agreement

- It is agreed to study the activation of a proprietary structure (entity, bank account and payment gateway) to guarantee operational autonomy.
- It is agreed to coordinate the transition with the current provider and to complete the administrative closing processes in accordance with internal procedures.

13. Immediate objective: reinforcement of resources and community engagement

It is defined as a priority to increase the project's resources and to energize the community using the tools already available (website, materials and referrals). A coordinated call to action in the short term is made.

Conclusion

- It is confirmed that the focus remains on reinforcing resources and community growth through the enabled channels.

14. Miscellaneous and attendance control

The prevailing framework for attendance and monitoring of participation, approved in previous sessions, is recalled. Its continuity and application in future calls is indicated.

Conclusion

- It is confirmed that the system of notices and sanctions for unjustified absence remains as agreed.

15. Closing of the session

With no further matters to discuss, the session of the Governance Committee is hereby adjourned.
